DIRECTORS' REPORT TO THE SHAREHOLDERS

In the name of Allah, the most Gracious, the most Merciful.

Directors of your Company are pleased to present unaudited condensed interim financial statements for the quarter ended September 30, 2022.

Cement Industry

During the period under review, cement industry made volumetric dispatches of 9.62 million tons compared to 12.82 million tons dispatched during the same period last year (SPLY), witnessing overall decline of 24.98%. Out of total dispatches, local dispatches comprised of 8.60 million tons (SPLY: 11.27 million tons) and 1.02 million tons of export sales (SPLY: 1.55 million tons).

Business Performance

1) Production and Sales Volume

(Tons)

	Period ended September 30 2022	September 30 2021	Variance %
Cement production	635,177	759,898	(16.41)
Cement sales	633,549	778,372	(18.61)

2) Financial Performance

(Rupees in thousands)

	Period ended September 30 2022	September 30 2021	Variance %
Net sales	8,321,543	6,197,423	34.27
Gross profit	1,909,760	1,462,517	30.58
Operating profit	1,778,797	1,343,754	32.38
Profit before taxation	874,273	739,164	18.28
Profit after taxation	585,823	480,485	21.92
Earnings per share (Rs.)	2.58	2.12	21.92

During the period under review, the Company dispatched 633,549 tons cement in local market compared to 778,372 tons dispatched in SPLY; a decline of 18.61%. Despite decline in sale volumes, topline of the Company improved by 34.27%, mainly driven by cost-push increase in sale price in the local market. Net sales per ton of cement sold during the period under review were Rs. 13,135 (SPLY: Rs. 7,962).

Cost of sales per ton of cement sold during the quarter increased to Rs. 10,120 (SPLY: Rs. 6,083). Major variance has been observed in fuel and power cost which increased to Rs. 8,063 in current period (SPLY: Rs.4,450 per ton), registering a massive increase of 81.19% , mainly attributable to rising coal prices in the international and local markets, depreciation of Pak rupee against USD and increased national grid tariff.

Raw Material cost per ton of cement sold in current period amounted to Rs. 611 (SPLY: Rs. 437) registering increase of 39.82%, mainly on account of increase in diesel prices. Packing material cost per ton of cement sold also increased to Rs. 728 per ton (SPLY: Rs. 616) registering increase of 18.18%.

Pursuant to revaluation of fixed assets carried out on June 30, 2022, total depreciation charge for the period under review amounted to Rs. 423.28 million (SPLY: Rs. 279.61 million). The increase in depreciation is the net result of revaluation of fixed assets and reduced cement production compared to the comparative period.

Despite repayment of long-term loans, finance cost for the period under review increased mainly due to upward revisions in policy rate by SBP. For the current quarter, finance cost amounted to Rs. 914.51 million compared to Rs. 580.23 million incurred during the comparative period.

Taxation represents charge on account of alternate corporate tax, deferred tax and provision for super tax for the quarter. This has resulted in net profit after tax of Rs. 585.82 million for the quarter (EPS: Rs. 2.58) compared to Rs. 480.49 million (EPS: Rs. 2.12) earned in the corresponding period.

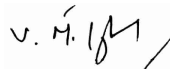

Future Outlook

With the addition of new cement capacities in coming months, the gap between demand and supply is expected to widen further. However, the demand is expected to rise as part of rehabilitation in flood-hit areas in order to rebuild houses and infrastructure. Swelling prices of fuel and other input costs, reduced government spending on development projects, increased national grid tariff and upward revisions in policy rate adversely affect the performance of cement industry. However, despite all these challenges, the management of the Company will continue to channel its efforts and focus on operational efficiencies to add more value to shareholders.

Acknowledgement

The Board acknowledges the assistance and cooperation of all stakeholders including financial institutions, customers, creditors, Government departments and all others who strengthened the Company. The Board also places on record its gratitude for the dedication of employees of the Company.

بنیادی ڈھانچوں کی دوبارہ تعمیر سے سیمنٹ کی طلب میں اضافہ بھی متوقع ہے۔ ایندھن اور بجلی کی بڑھتی ہوئی قیمتوں، حکومتی ترقیاتی اخراجات میں کمی اور شرح سود میں اضافے سے سیمنٹ کی صنعت متاثر ہوتی ہے۔ تاہم ان سب مشکلات کے باوجود کمپنی کی انتظامیہ حصص داران کی بہتری کے لئے اپنی کوششوں کو جاری رکھے گی۔

17 FAIR VALUE OF FINANCIAL INSTRUMENTS

17.1 Fair value is the amount that would be received on sale of an asset or paid on transfer of a liability in an orderly transaction between market participants at the measurement date. Consequently, differences can arise between carrying values and fair value estimates. Underlying the definition of fair value is the presumption that the Company is a going concern without any intention requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

IFRS 13 'Fair value Measurements' requires the Company to classify fair value measurements using fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level 1 Quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 Inputs other than quoted prices included within Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 Inputs for the assets or liability that are not based on observable market data (unobservable inputs).

17.2 The following table shows the carrying amounts and fair values of assets according to their respective category, including their levels in the fair value hierarchy for financial instruments measured at fair value. It does not include fair value information for financial assets not measured at fair value if the carrying amount is reasonable approximation of fair value.
